One of the greatest teachings of the Buddha is his evocation of emancipation, liberation and freedom from suffering. He called this Nibbana (Pali), Nirvana (Sanskrit). In this presentation, we will explore elements of the Dhatuvibhanga-sutta and the Majjhima-nikaya as well as other teaching stories from the great Buddhist scholars who illuminated this subject.

Dr. Ana Perez-Chisti is an Executive Core Faculty Member at the Institute of Transpersonal Psychology in the Global PhD Program. She leads the Sufi Movement International functioning as National Representative for the USA.
